

Battery Energy Storage Systems can be used for a wide variety of applications such as powering off-grid communities, marine projects and, on-grid load levelling.

## BESS Benefits

- Reduce air pollution from diesel generators.
- Reduce soil wastes from improper disposal of second-life EV batteries.
- Create custom energy solutions for each remote community.
- Assisting Indigenous and non-Indigenous Canadian communities in harnessing and using energy storage systems. This enables energy conservation as well as the opportunity to build stronger, lasting, positive relationships with indigenous communities.

## Management Team

### Ray Brougham, CEO

Founder of Rainhouse. A true visionary and an innovative leader who possesses a clear and inspiring vision for the future of Rainhouse.

### Akshay Kakar, President

17+ years across fund-raising, venture investing, M&A, finance, corporate strategy, and new business incubation in health and clean-tech.
